Please notice this. Those in arrears, either for subscription or advertising, will consider a favor by calling and settling. It is a small amount to each, but in the aggregate amounts to a handsome sum to us, and will enable us to make certain improvements contemplated.

Bargains may be found by calling at the Brick Store. The large stock of new goods there exhibited is attracting the attention of all.

A man named Brown was accidentally shot on Nescence trail one day last week, and at last accounts was in a critical situation.

We understand a party are making arrangements to survey the Grand Round reservation, and take the necessary steps toward dividing the land among the Indians.

The extreme warm weather following the rain of last week has ripened the grain very rapidly, and reapers and headers are being brought out, and farmers are speedily preparing to garner the golden harvest.

The road to the ocean beach at the mouth of Salmon River is in prime condition for a mountain road, and those wishing to pass the warm days in a cool retreat will do well to avail themselves of this resort.

The Albany Democrat claims "that Albany has fewer loafers of its size than any other town in the State." What are their size, Brother Brown? We proclaim that Dallas has fewer loafers than any other town in the State of its size.

Raising. It is perhaps not generally understood that Mr. W. C. White is still carrying on his furniture shop near Wymie's Mill, yet such is the fact. Anyone wishing new furniture, of the best quality, can be accommodated; and those having furniture to be repaired would further their interests by giving him a call.

Mr. T. B. Newman has on hand a novelty in the shape of a churn. A gearing is attached to the dash of a common churn, and turned by a crank. The weight of the dash is balanced by a ball attached to a turning rod, through one end of which works a piston, which moves the dash. It is simple, and by those who have seen it declared the best churn extant.

We have been handed a book, entitled "Christian Progress," written by the Rev. W. Jolly, for perusal. The work is well written, and the author's ideas, though rather unique, are finely expressed, and in many instances well authenticated. His arguments concerning the authenticity of the Bible are clear and forcible, and commend themselves to the general reader. We cannot now give a general synopsis of the work, but would advise all who wish to be edified and instructed to give it a careful reading. While, of course, we cannot expect that everyone who reads it will endorse all it says, yet, "we can prove all things, and hold fast to that which is good."

Dr. J. C. Grubb, a member of the party who went from here to the coast last week, was detained there on account of the illness of a young lady, from Salem whose name we cannot now give. The young lady had been riding horseback on the beach, and during her ride was thrown from her horse and somewhat injured. After returning from her ride, she went into the surf, and engaged in other vigorous exercise with her usual avidity. In the evening, she went into her tent to lie down and rest, she being weary, and the remainder of the party enjoyed themselves by the camp fire until time for retiring, when they found the lady cold, and apparently insensible. The doctor was called, and restoratives given her, and in a short time she was better, though still in a critical situation when our party left. The doctor expects to be home to-day if the lady recovers sufficiently for him to leave.

More than 100,000 persons annually die in this country from Consumption, which is but the child of Catarrh. \$500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy for a case of Catarrh which he cannot cure. Sold by druggists, or send 60 cents to Dr. R. V. Pierce, 133 Seneca st., Buffalo, N. Y., and get it by mail. Don't get swindled by men calling themselves Dr. Sage; Dr. Pierce is the only man now living that has the right and can prepare the genuine and original Dr. Sage's Catarrh Remedy, and his private U. S. Government Stamp is upon the outside wrapper of every package of the genuine.

Telegraphic Summary.

LONDON, August 1.—Bazaine is in London.

Versailles, August 1.—The Assembly has imposed a tax upon raw material. The Government does not intend dissolving the Guards.

Paris, August 1.—The Bourse opened flat.—Rentes fifty-francs forty-seven centimes.

Rome, August 1.—The elections were apathetic. Two-thirds of the electors abstained from voting. The moderates generally successful in the city and Provinces.

London, August 1.—There is a growing uneasiness in the public mind from the fact that the cholera has raged two years in Russia. The scourge has not yet reached the frontier, and a close watch has been instituted to prevent its progress. Apprehension exists everywhere. As it has not advanced upon Germany in the usual way, it may now come by way of the sea, and Government has presented regulations to be enforced upon all ships from Baltic ports. There have been recently some cases at Hull, which is on the route of emigrants from North Germany to America. There is some anxiety touching the cholera, which appears in the south of France—one case has occurred at Marseilles. Precaution is being taken.

Prince Arthur will shortly be created Duke of Connaught.

The Duke of Edinburgh has returned to England.

The United States steamers Junata and Frankia are at Southampton.

The French Legation at Dresden, Darmstadt, Hamburg and Weimar, are suppressed.

Rome, August 1.—There is great excitement here over the vote in the French Assembly on the position of the Pope.

The journal's regard war with France as probable, and accuse the Minister of betraying the country.

The Gazette says the Government should not have gone to Rome, but having gone, must stay though dark clouds should envelop the political horizon.

Paris, July 31.—The acceptance of the resignation of Favre is confirmed.

London, July 31.—The House of Commons to-night passed a bill granting an allowance of one hundred thousand pounds per annum to Prince Arthur.

The vote stood two hundred and seventy-six yeas to eleven nays.

Paris, July 31.—The number of communists awaiting trial is thirty-two thousand. In order to render possible the disposition of so great a number of cases, a bill was introduced in the Assembly increasing the number of Judges and removing restrictions from those Judges who have at any time committed themselves against, or have been obliged to act against the Versailles Government.

The result of the first and second elections for members of Municipal Council of Paris shows that it is composed of thirty-eight Conservatives, seven Moderate Republicans, twenty-seven Republicans, and ten Ultras.

Thiers replying to a delegation from the occupied Provinces, intimated that in six weeks the occupation of the German troops would be limited to Champagne and Lorraine.

London, July 21.—The House of Commons on the Election Bill. Gladstone opposed the various amendments. A division was had on the proposition that the election expenses be paid out of local taxation, which resulted in a majority of nine-six against the Government.

A meeting was held to-night in Trafalgar square, to protest against allowance to Prince Arthur. Five thousand persons were present, and were addressed at different points. There was much excitement, and the entire police force were out. The police seized a Communist flag carried by one of the clubs. Armed demonstrations, and some fighting are reported, and some arrests were made. The meeting adjourned in disorder, and the crowd was dispersed by the police.

The Government to-day prohibited the meeting in Trafalgar Square, and massed the police and soldiery there to prevent the Assembly, but, alarmed at the threatening aspect of the populace, the force was withdrawn and a meeting held without molestation, and violent revolutionary sentiments were expressed.

Washington, August 1.—At a Cabinet meeting to-day it was decided to tender to Charles Francis Adams the appointment of arbitrator on the part of United States, to Meet at Geneva with those of other nations, for the settlement of the Alabama claims under the treaty of Washington.

The President appointed Alexander R. Brunot of Pittsburgh, Indian Commissioner and there is reason to believe he will settle the difference between Secretary Boutwell and commissioner Pleasanton, which were fully discussed in the Cabinet to-day, by the appointment of J. W. Douglass, now first Deputy Commissioner, to succeed Pleasanton.

The Royal mail steamer Delta, from Bermuda, arrived last evening bringing intelligence of a fire at Point Apettri, Guadeloupe, on the 18th ult. Nearly the whole town was destroyed, and thirty thousand persons left without shelter.

MECHANICS.—The day has been to be called a mechanic was to be called a second class man—was to occupy a lower seat at the feast—and scarcely any but poor men's children were apprenticed to learn mechanical pursuits; and often have we heard the expression uttered by the way of censure and reproach "Oh he's only a mechanic!" and to follow mechanical pursuit for a livelihood was considered derogatory to refined society. How different now to what it was then. Then men's worth and merits were tested by the length of their purse. These measures have had their day gone. The cry now is "for mechanical muscle and brain!" all over the country. Ingenious mechanism is a lodestone that wondrously attracts to greatness, glory and renown.

In New Orleans recently, a woman choked herself to death with a pair of suspenders.

As Mr. Geo. Marshall and family, accompanied by a Miss Ashley, were driving on to the ferryboat at Eugene City a few days since, the boat which the ferryman was holding, started into the river, letting the horses and carriage into the water. The horses were drowned, but the party escaped.

The Democrat says there will be twice as many potatoes raised in Linn county this year as there was last.

One day during the heated term the thermometer stood at 195 deg. in the shade at Rye Valley.

The Red Rock Democrat of July 22d says: Last Sunday this part of Oregon was visited by a regular old-fashioned rain storm, accompanied by wind, hail, thunder and lightning. Wednesday last was very sultry and hot.

Transfers of real estate in Jackson county during the year ending July first footed up to ninety-one thousand and two hundred and seventy-four dollars.

The Christian Messenger says: Professor A. D. Butler has resigned his position in Christian College of Prof. of Greek and Latin languages and literature.

Forty Years' Experience have tested the virtues of Dr. Wistar's Balsam of Wild Cherry, and the result is that it is the best remedy extant for pulmonary and lung diseases, embracing a whole range from a slight cold to a settled consumption. Were it not for its merits, it would long since have "died, and made no sign."

TRUTH MUST PREVAIL!

Bristol's Sarsaparilla and Pills are a sure cure for vitiated or impoverished blood; are certain to purge out and carry off all bad humors; are the best of all medicines for the stomach, liver, and kidneys.

Try them! Try them!

581.

THE QUEEN OF PERFUMES!

Attest the many virtues of the genuine MURRAY & LAMMAN'S FLORIDA WATER. Matchless as a perfume, it is equally matchless as a cosmetic, allaying the irritation of the skin, removing headache, preventing faintness, and when diluted, is the best of tooth-washes. Truly it is the most valuable of all floral waters.

As there are worthless counterfeits, buyers should always ask for the Florida Water prepared by Lamman & Kemp, N. Y.

556.

It is useless to attempt to cleanse a stream while the fountain is impure. Dyspepsia, complaints of the liver or kidneys, eruptions of the skin, acrofula, headach, all disease, arising from impure blood, are at once removed by Dr. WALKER'S CALIFORNIA VINEGAR BITTERS, the great and infallible purifier of the blood and renovator of the system. It has never been known to fail, provided the patient had not delayed using it until the vitality of his system is too far gone.

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhea, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (hot, if convenient,) and then bathe freely the stomach and bowels with the Pain Killer.

Should the diarrhea or cramps continue, repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. It cures Cholera, Summer Complaints, Dysentery, Diarrhea, Acute Stomachitis, and all the ailments of the stomach and bowels, and is equally effective in all cases of indigestion, flatulence, and all the ailments of the stomach and bowels.

It is applied to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache, it will try it. In short, it is a Pain Killer.

Directions accompanying each bottle.

The Pain Killer is sold by all Dealers in Medicines.

Price, 25 cents, 50 cents and \$1 per bottle.

Dizziness and Emaciation

Both result from the lack of ability to convert the food into nutriment. How necessary, then, for those suffering from these alarming symptoms to have a remedy that will strengthen the stomach and digestive organs. For such Headache and Indigestion, apply to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache, it will try it. In short, it is a Pain Killer.
